

Day 2 (March 9th): Supervisors

08:00-08:30: Intro

It's easy to feel like you are alone, but there is no reason for it. Look around the room. Everyone here is a resource. Everyone here got to where they are because someone believed in them. Think about where you were and what you knew 5 years ago; are you in the same place? Think about where you want to be in 5 years; how are you going to bridge that gap? Did you come this far to give up? If you fail, who pays the price? If it is worth doing, it is worth doing right.

08:30-09:30: How is your culture doing?

Changing your agency's culture should be on every Supervisor's agenda. Let's talk about some things that you have done, or seen done, that have changed the culture in your organization.

9:30-9:50: Break

9:50-10:50: The Fine Print

We live in a world that is increasingly making it easier to survive without reading. How many of you have read a single User License Agreement for your phone from start to finish? How about the contract you signed 300 times to purchase your house? We live in a culture where it is absolutely acceptable to sign documents without reading them, but you cannot let that be the norm with regards to your employment documents. This session will be spent discussing the importance of knowing your agency's policies and Collective Bargaining agreement from start to finish, and the proper way to effect change within those documents if you wish to do so.

10:50-11:00: Break

11:00-11:30 Statewide 911 Administrator's NG911 Project Status Update

11:30-12:10: Next Gen 911 and Emerging Technologies

What new technologies have been recently implemented in your center that have made your life easier? Do you know what Next Gen 911 is and how it will impact your daily work life?

12:10-12:30: Break and Lunch Served

12:30-13:30 Lunch Open Discussion

During this segment, we will ask for any dilemmas you are experiencing that will not be addressed in the other primary segments. Air your struggle out, and let the room respond to it. This session will be a great time to collect business cards and make contacts to use throughout the year.

13:30-13:50: Break

13:50-14:50 Cannibals of the modern day PSAP

Everyone is familiar with the "Eat our Young" culture that is so pervasive in our industry. How do we break the cycle of treating others how we hated to be treated? If you have ever heard the expressions "I paid my dues" or "They signed up for this" or maybe "We all had to deal with it" then you will be more than equipped to contribute to the discussion in this session. We must stop pretending this is not a problem and tackle it head on to create an environment conducive to positive professional growth and learning.

14:50-15:10: Break

15:10-16:10: Dealing with "that person".

EVERYONE has "that person" working for them. What have you done to keep a lid on the situation? What have you tried that blew up in your face? If you get rid of them, will your problems be solved?
